

## **IMPROVE YOUR CAREER LUCK BY USING FENG SHUI**

Hey there,

***Welcome to my ever Blooming Feng Shui Tribe!***

I am so happy to have you here and really hope that you find this information useful.

You will need some additional information before you can get started.

Each Feng Shui calculation is based on the clients' **Date of Birth.**

We then calculate your **Kua number**, based on your Date of Birth.

Once you have your Kua number you need to **work out the compass directions** of your home, office or business premises.

You can work out the directions by standing near your front door and taking directions by using a basic hand held compass.

If you are using an app on your phone, make sure you double and triple check it because these apps can be a bit unreliable.

Another thing that you need to keep in mind is that **Feng Shui makes 1/3<sup>rd</sup> of your total luck.**

The other two lucks include: **Heaven luck**, which is also known as Destiny luck; and **Mankind luck**, which takes into consideration the kind of person you are, are you someone who works hard to make things happen, or are you someone who just waits for destiny to dish out whatever it plans to?

Your **Mind set** also plays a very important role in your life.

Try and use positive words when you are talking about your life or any life situation.

Your thoughts, feelings and sentiments play a vital part in creating the outcome in your life.

Keeping this in mind can really fast track your luck.

And, every time you apply Feng Shui tips '**correctly**' you start seeing an improvement almost immediately.

Make sure you apply the tips properly, and then relax and wait for Feng Shui to bring results.

**You can upgrade from this course to any of my Feng Shui packages.**
